

Edel Paddle Pro

Paddle is a fast, dynamic game which finds its origin in South America. Edel Grass has now developed a special all-weather synthetic grass court specifically for this sport. The combination of Edel Grass's LSR® (Low Sliding Resistance) artificial grass, infill and substrate creates a high quality artificial grass system with perfect playing properties (controlled sliding, turning and pivoting). The Edel Paddle Pro system is ITF certified (Pace Rating 3) and therefore also suitable as a substrate for tennis courts.

The best alternative to nature

Product characteristics

EDEL PADDLE PRO

Edel Paddle Pro stands for:

- The all-weather paddle court
- Infill using red ceramic sand
- Controlled sliding, turning and pivoting
- Long lifespan due to TenCate LSR® (Low Sliding Resistance) fibres (15 mm)
- Easy to maintain
- ITF certified, and can therefore also be used for standard tennis courts and multisport use
- Suitable for both indoor and outdoor use

Constructions

Edel Paddle Pro can be used with a variety of substrates, and remains ITF certified under these conditions. As a result, the system can be customised for any location.
